

Declaration of The Peace City by Shiroi City

March 13, 1987(62th year of Showa)

Shiroi City with the citizens of it,

It is a rural city with lushly green where pear flowers bloom,
It is a city of culture where people gather while interacting with each other under a blue sky,

It is a city full of smiles and singing voices,
Therefore it is a city where its citizens can feel the peace of daily life and the happiness full of hopes.

We, the citizens of Shiroi City,

Would talk about the path to peace,
Because we love the earth that is important to all mankind,
Because we love irreplaceable individual people,

And,

Are deeply aware of preciousness of life,
Sincerely earnestly wish that the abolition of nuclear weapons and the realization of ever lasting peace between Japanese and the world could be realized.

Shiroi City hereby,

Proclaims that:

Shiroi City should be a city of peace

As a result of rallying the mild of its citizens seeking peace and prosperity.
